QuickPhone — Physical ERD (complete): 16 tables with all keys and attributes

One diagram for the whole data model. Each verb reads from the "one" side to the "many" side. PK primary key · FK foreign key (→ table) · UK unique · CK checked value list · NN not null · derived = denormalized

Every foreign key is drawn as a relationship line. EMPLOYEE plays several roles: the technician assigned a job, the sender of the completion notice, and the person who changes a status, decides a quote, records a stock change, or creates or approves a purchase order.
