QuickPhone — Level 1 DFD: Process 6.0 Record Device Release (logical)

From UC-06 Release Device and Record Payment and FR08. Renamed from "Release Device": the system records the release; staff hand the device over.

Business rules (FR08): a device is released only after payment is recorded (UC-06 4a); only the fact of the ID check is stored, never the ID number.
The customer signature is captured at 6.4 (open question carried from Sprint 2: should the customer sign at all? FR08).
