QuickPhone — Level 1 DFD: Process 7.0 Process Purchase Orders (logical)

From UC-08 Create, UC-09 Approve and UC-10 Receive Purchase Order, FR09 and FR10. Renamed from "Replenish Parts".

Business rule (client-confirmed): every PO needs Owner approval, so 7.4 accepts only Approved POs and 7.5 refuses a delivery with no approved PO. A rejection returns the PO to Draft with a reason.
Orders are placed with the supplier outside the system (phone, email or website), so the supplier is not an external entity. Partial deliveries leave the PO Partially Received.
Open: a PO spending threshold or urgent path; if adopted it becomes a rule inside 7.3, not a new flow.
