QuickPhone — Level 1 DFD: Process 9.0 Maintain Shop Records (logical)

From UC-07 Maintain Parts Inventory and UC-11 Manage User Accounts; FR09, FR11, FR14.

Added so that every store has a process that creates and changes its master data: staff and stores (D10), parts (D7) and suppliers (D9). Stock count adjustments and the starting import run through 9.3 (UC-07 2a, 2b).

The Manager maintains these records (FR09, FR10, FR14); the Owner may also manage staff accounts, and only the Owner can assign the Owner role (UC-11 3a).
