QuickPhone — Level 1 DFD: Process 3.0 Record Diagnosis (physical)

From UC-02 Diagnose Device and Prepare Quote, UC-03 Record Customer Approval, FR05–FR07. Renamed from "Diagnose Device": the system records, it does not diagnose.

Business rule (FR05, client-confirmed approval stage): every quote goes to Awaiting Approval and no repair starts until 3.5 records the customer's decision.

The quote's parts amount comes from part.standard_cost; quote.total_amount is stored so the approved figure cannot drift. The customer is phoned outside the system (UC-03 step 2).
