QuickPhone — Physical ERD overview: 16 tables in 7 DFD data stores

Each shaded box is a DFD data store holding exactly these entities. Each line is named both ways: top or left from the "one" side, bottom or right back from the "many" side.

Not drawn: audit links in which an EMPLOYEE changes a status, decides a QUOTE, sends the pickup notification, records an INVENTORY_TXN, or creates or approves a PURCHASE_ORDER (FKs on the detail slides).
