QuickPhone — Logical ERD detail 1 of 3: Customers, devices, appointments, staff and stores

D1 Customers & Devices · D2 Appointments · D7 Staff & Stores. PK primary key · FK foreign key (→ table) · UK unique

Assumption to confirm with the owner

StoreID is each employee's home store. The Owner role sees both stores; whether a Manager covers one store or both is still open.

Lookup tables: no foreign-key line

DEVICE_MODEL values are copied into DEVICE at check-in. Brand and model are unique together.

SCREEN_ACCESS: no row means the role keeps its default access to that screen. Role and screen are unique together.
